

# Sloughbottom Pavilion Norwich

## Project

Sloughbottom Park Pavilion, Drayton Road, Norwich

## Structure

Single storey 1930s park pavilion with load bearing masonry, RC roof slabs/ring beams, and concrete column collonade

## Client

Norwich City Council – Property Services

## Contract Value

£2k

## Contract Details

Concrete and fabric condition survey, largely to interior concrete surfaces, with a view to full concrete repair and refurbishment. This work was won in tender. We took samples and carried out in-situ testing to ascertain the true condition and reparability of this nice little concrete/masonry structure. We prepared an interpretative report and offered remedial advice.
